2025002103 2025003103 2025003603 2025006603 Auto Parts Car Radiator for Mercedes-BENZ

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 2025002103 2025003103 2025003603 2025006603
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box , Standard tray
- Delivery Time: 3-35 days
- Payment Terms: D/P, L/C, T/T

Product Specification

- Type: Car Radiator
- Name: Automobile Spare Parts
- Size: Standard
- Material: Aluminum
- Country Of Origin: China
- Warranty: 12 Months

Product Description

Product Description:

A car radiator is a crucial component of a vehicle's cooling system. It helps regulate the engine's temperature by dissipating heat generated during the combustion process.

A typical car radiator consists of a series of thin metal tubes or channels, called the core, that are connected to inlet and outlet tanks. The core is usually made of aluminum, which has excellent heat conductivity, while the tanks are typically made of plastic or aluminum. The primary function of a car radiator is to cool the engine by transferring heat from the coolant circulating through the engine to the surrounding air. It achieves this through a combination of conduction, convection, and radiation.

Features:

Efficient Heat Dissipation: Our Car Radiator is designed with optimal heat dissipation in mind. The high-density core is made up of thin metal tubes and cooling fins, which maximize the surface area for heat transfer. This ensures efficient dissipation of the heat generated by the engine. As the coolant flows through the radiator, it effectively cools down, maintaining the optimum operating temperature.

Durable Construction: Our radiator is built to last and is designed to withstand the demands of daily driving. It features an aluminum core that is sturdy and corrosion-resistant, providing excellent heat conductivity and durability. The inlet and outlet tanks are made of high-quality materials to ensure long-lasting performance, making our Car Radiator an ideal and reliable choice.

Enhanced Cooling Performance: Our Car Radiator is optimized to maximize cooling efficiency. The design includes the arrangement of tubes, fins, and coolant flow paths, ensuring that the engine remains at a safe and consistent temperature. This reduces the risk of overheating and potential engine damage, ensuring that your vehicle runs smoothly and efficiently.

Quality Assurance: We take quality seriously, and each Car Radiator undergoes rigorous quality control measures to ensure that it meets the highest standards of reliability and performance. We conduct thorough testing to ensure optimal cooling efficiency and durability, providing you with the confidence you need for worry-free driving.

Warranty: We stand behind the quality of our Car Radiators and offer a warranty to provide you with peace of mind. Our warranty protects against any manufacturing defects or faults, giving you the assurance that your radiator is built to last. Choose us and experience the best in car radiator performance and reliability!

Applications:

If you want to improve the cooling system of your car, consider our premium Car Radiator. With this product, you will benefit from a better cooling performance, an optimal engine temperature, and a more reliable operation.

Our Car Radiator is both durable and efficient, ensuring that your engine remains in good condition and extending the life of your vehicle. You can trust in the quality of our product to keep your car running smoothly for a long time.

FAQ:

1. Who are we?

We are based in Guangzhou, China, start from 2018, we are specializing in all kinds of spare parts for Japanese cars and Korean cars, for example, engine parts, suspension parts, electric parts, steering parts, transmission parts, body parts. . .

2. How can we guarantee quality?

Always a pre-production sample before mass production;

Always final inspection before shipment.

3. Why should you buy from us from other suppliers?

We have experience in spare parts for more than 10+years

A large of stock

Professional export company

Accept small order

We can design anything well according to customers' requirement
